

## TOURISM

# East End Jamaica

Location: Point, St. Thomas

One of the last large tracks of white sand seashore in Jamaica, East End's natural and unspoilt characteristics suggest great potential for the development of a single, multi-faceted and unique resort. This potential, coupled with worldwide growth of tourism and identification of eco-tourism as high growth market segment, points naturally to specific development themes for the property

Fronted by white sands and a reef-protected bay, East End is an isolated and untouched property of 1,044 acres.

East End, with the exception of a small area on which the lighthouse stands, comprises all of the land to the east of a line running north east to east from Quaco Point to approximately 2/3 of a mile west of South East Point.

The property is being offered for sale.
